

Lucky's Super Powers

Lucky the Preparedness dog says: "When you need to run in an emergency your powers of **SUPER SPEED** and **SUPER STEALTH** are triggered!"

When something doesn't look or feel right, your **SUPER ATTENTION** and **SUPER LISTENING** will perk up and activate your other superpowers.

SUPER LISTENING: Always listen to your teacher's directions. They can help you activate the right superpowers at the right time.

SUPER SPEED: Becoming faster than any threat! With Super Speed you can run quickly and safely to get out of harm's way. But remember, only use this power when you teacher tells you to activate it.

SUPER STEALTH: When you are running away from the danger, it's important to make sure that the bad guy doesn't see you. Your super stealth power helps you to be extra quiet when you need to escape from the threat.

With these superpowers activated, you are a hero protecting yourself and those around you!
